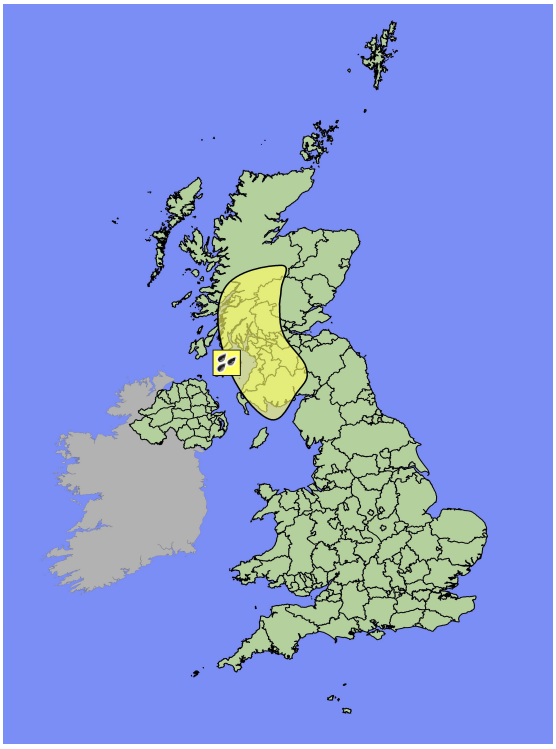
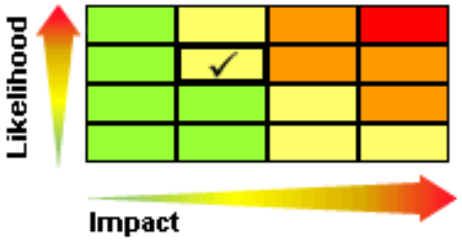
National Severe Weather Warning Service





Chief Forecasters Assessment
A depression will move east to the north of Scotland through this evening and tonight. Its associated frontal band will cross Scotland this afternoon bring outbreaks of heavy rain and strong winds. The rain will be heaviest across Dumfries and Galloway, Argyll, and western parts of Highland Central and Tayside, with standing water likely in places. The rain will be accompanied by southerly gales which may be severe in exposed areas with gusts of 60-65mph. In addition, the rain will start off as snow over some higher roads in the Highlands and Tayside, with 5cm or so likely at Drumochter before it turns to rain.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **12:45 on Mon, 28th Jan 2013** until **18:00 on Mon, 28th Jan 2013**

A band of heavy rain, accompanied by strong winds, will cross Scotland this afternoon. This will bring the risk of localised flooding.

The public should be aware of the possibility of difficult travelling conditions.
